

GEORGETOWN SOUTH PROJECT CONSTRUCTION UPDATE

The Georgetown South (GTS) Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Air Rail Link service between Union Station and Pearson International Airport.

Strachan Avenue Overpass

What are we doing?

- Lowering the rail corridor from Bathurst to King Streets
- The rail corridor will be lowered by at least 5 metres
- Strachan Avenue will be raised by at most 2-3 metres at the crossing

Phase 1 Construction

- To start January 2011
 - construction of a retaining wall in the North-East quadrant, which will also support the City of Toronto's Fort York Pedestrian Bridge
 - utility work, including the construction of a new utility tunnel

Looking south toward proposed Strachan Overpass

Phase 2 Main Construction

- To start summer 2011

How Will This Impact You?

- GO Transit is working to minimize construction impacts and traffic disruptions as much as possible
- The majority of the work will take place during regular construction hours from 7 a.m. to 7 p.m. weekdays
- When work outside these hours is necessary, it will be communicated in advance

Pre-Condition Inspections

- Prior to construction, we will be inspecting buildings within a zone of 100m from any source of construction vibration to protect your property.
- The inspection work will include requests for permission to undertake a visual property inspection to document the existing building conditions (including foundations and in-ground swimming pools).
- Property owners will be notified if an inspection is required; if you have any questions or concerns, please contact our Community Relations team.

For more information, please contact Robyn or Carmen at the Strachan Community Office at 416-581-1300 or e-mail gts@gotransit.com if you have any questions or concerns.
