

GEORGETOWN SOUTH PROJECT CONSTRUCTION UPDATE

The Georgetown South Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Air Rail Link service between Union Station and Pearson International Airport.

Denison Road Underpass Construction

What We Are Doing

Denison Road East will be re-aligned and converted into an underpass, separating train traffic from vehicles and pedestrians. The existing Denison Road East will be converted into a cul-de-sac, as will Sam Frustaglio Drive. Arthur Street will become a turn-about.

Construction Begins

The first phase of construction is to relocate utilities such as gas and hydro before major construction can begin this summer. This phase also includes the demolition of houses on the north side of Denison Road East (west of the tracks) close to Weston Road in early March. Material from the demolition will be donated to Habitat for Humanity.

Our contractor, Dufferin Construction Company, is temporarily using 1731 Weston Road (former Price Chopper) as a construction site location.

How Will This Impact You?

- Normal construction noise: standard equipment will be used during the utility relocation including a back hoe and hydro vacuum equipment to dig.
- For the foreseeable future, work will occur during regular construction hours from 7 a.m. to 7 p.m. weekdays. Advance notice will be provided for work on Saturdays and weeknights when necessary.
- Sometime in March, the Denison Road rail crossing will be closed between Jane Street and Weston Road for a minimum of one year during construction.
 - An accessible signalized pedestrian crossing will be maintained at all times.
 - There will be minimal impact to Weston Road.
