

GEORGETOWN SOUTH PROJECT CONSTRUCTION UPDATE

The Georgetown South (GTS) Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Air Rail Link service between Union Station and Pearson International Airport.

Lansdowne Avenue Bridge Road Closure: April 2-4

This was rescheduled from March 26-28 due to a delay in the delivery of the fabricated spans

Project Description

Between **April 2 and 4, 2011**, a new span will be installed on the north side of the Lansdowne Avenue bridge (just south of Dundas Street West) to accommodate an additional track for the GTS Project. The work will involve modifying the existing concrete abutments and installing the new span. Most of the work will be done from above on GO's rail corridor.

Road closure for installation of the new span

- Full road closure between Rideau Avenue and Shirley Street from **Saturday, April 2 at 5 a.m. to Monday, April 4 at 5 a.m.**

How will this impact you?

- This is routine construction work, with normal construction noise from trucks, cranes, construction equipment and little to no vibration impact anticipated
- Vehicular access to the No Frills plaza available only to southbound traffic on Lansdowne Avenue
- Pedestrian access will be maintained at all times – on one side of the street or the other – except during the span installation on April 2
 - During this time, all sidewalks will be closed at the bridge for a brief period of time
 - There will be two paid duty officers to direct traffic
- TTC buses will be diverted off Lansdowne Avenue
 - For further details on TTC service during this closure, please contact the TTC at (416) 393-4636 or www.ttc.ca
- There will be some additional work after the span is installed that will take place at a future date
 - This work will include standard site clean up and should have minimal impact on traffic or the community
