

GEORGETOWN SOUTH PROJECT CONSTRUCTION UPDATE

The Georgetown South Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Air Rail Link service between Union Station and Pearson International Airport.

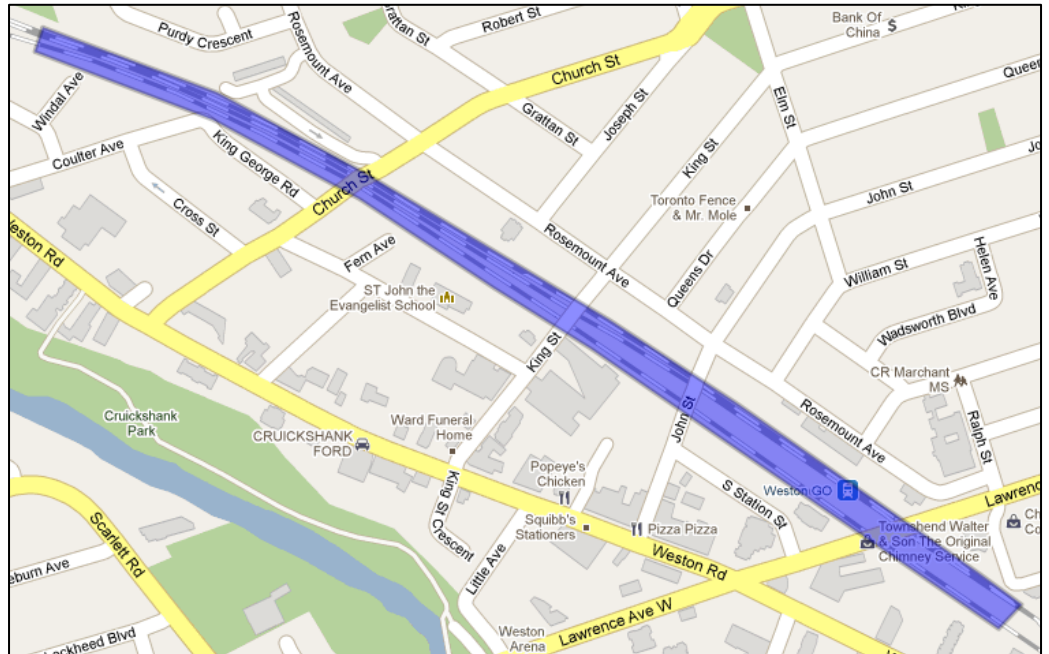

Communications Fibre Relocation Begins in April

Project Description

The GO Transit rail corridor will be lowered east of Weston Road to Lawrence Avenue, and covered between Church and King Streets. The Weston Station will be relocated to the south side of Lawrence Avenue.

What We Are Doing

Beginning the first week of April, fibre optic cables will be relocated within the corridor in preparation for the Weston Tunnel construction. Other work will include general clean up, removal of plant overgrowth and debris. Work will be limited to the rail corridor and crossings at Church, King and John Streets, and will be completed by June 2011. During this time, the former Price Chopper building, located at 1731 Weston Road, will be demolished, and the property will be used for construction staging for the tunnel construction.

How Will This Impact You?

- This is routine construction work, with normal construction noise from back hoes, hydro vacuums and dump trucks
- Work will take place during regular construction hours from 7 a.m. to 7 p.m. weekdays; however, if necessary, work outside these hours will be communicated in advance
- There will be some limited temporary lane closures at Church, King and John Streets

Please sign up for our e-mail distribution list to stay up to date on the construction at gts@gotransit.com.
Drop by our Community Office: Monday – Wednesday, Friday 8:00 a.m – 4:00 p.m., Thursday 12:00 noon – 8:00 p.m.
