

Weston Construction Update – June 2011

Relocated Weston GO Station Construction

Project Description

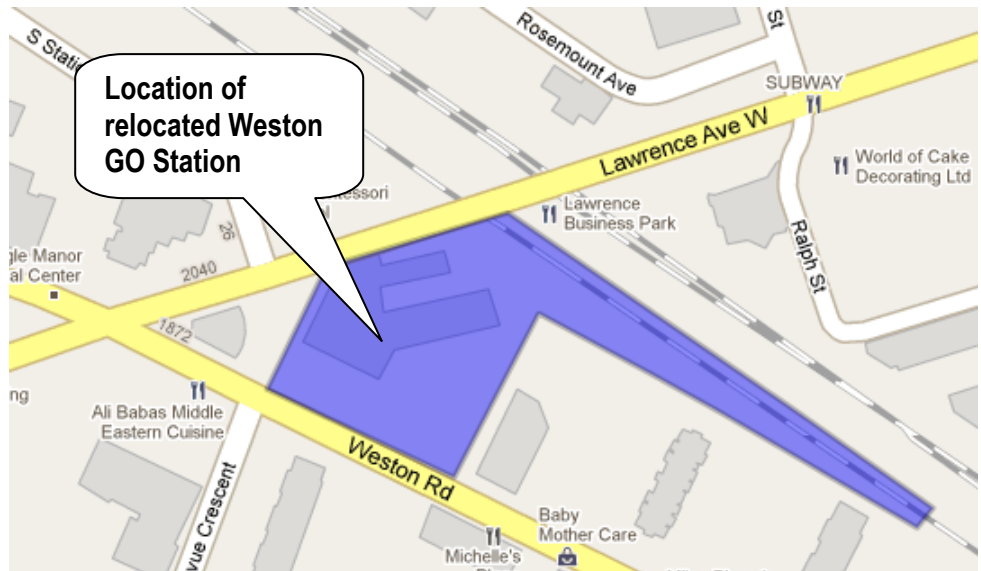

The Weston GO station will be relocating to the southeast corner of Weston Road and Lawrence Avenue. We are building a new platform and parking facilities. Passengers will be able to board the GO trains and future Air Rail Link from this station.

What We Are Doing

A full service station will be built with parking for over 180 cars. The station will be fully accessible and feature a passenger pick up and drop off. **Construction will begin in July 2011**

How Will This Impact You

GO customers will begin accessing the relocated station at the new site in spring/summer 2012. Paving machines and cement trucks will be used to construct the new station. There will be some vibration caused by soil compaction. The majority of work will take place from Monday – Friday between 7 a.m. and 7 p.m. and Saturdays 9 a.m. – 7 p.m. If work is required outside of these hours, advance notice will be given to residents.
