

The Georgetown South (GTS) Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Air Rail Link service between Union Station and Pearson International Airport.

Lawrence Avenue Bridge Construction Update

Lawrence Avenue Sidewalk Closures Beginning October 11th

Project Description – Lawrence Avenue Bridge

To accommodate increased service on the Georgetown South rail corridor, GO Transit will be adding two tracks to the rail overpass at Lawrence Avenue West, east of Weston Road. This will require widening of the GO bridge span that crosses Lawrence Avenue.

What We Are Doing

Most of the work on the Lawrence Avenue bridge will be completed from above. The construction will require the widening of the span using poured concrete.

How This Will Affect You?

Beginning **October 11th**, sidewalk access under the Lawrence Avenue bridge will be restricted to ensure pedestrian safety during construction. This will begin with a **closure of the sidewalk on the north side** and sidewalk closures will alternate between the north and south sides of Lawrence Avenue until the end of 2011. **One sidewalk will remain open at all times.** The pedestrian tunnel access to the GO platform from Lawrence Avenue will remain open during construction.

We recommend adding a few extra minutes to your trip if you walk along Lawrence Avenue under the bridge. The lane restrictions that are currently in place for vehicles will continue during this period. We apologize for any inconvenience this may cause and thank you for your understanding.
