

# GEORGETOWN SOUTH PROJECT CONSTRUCTION UPDATE

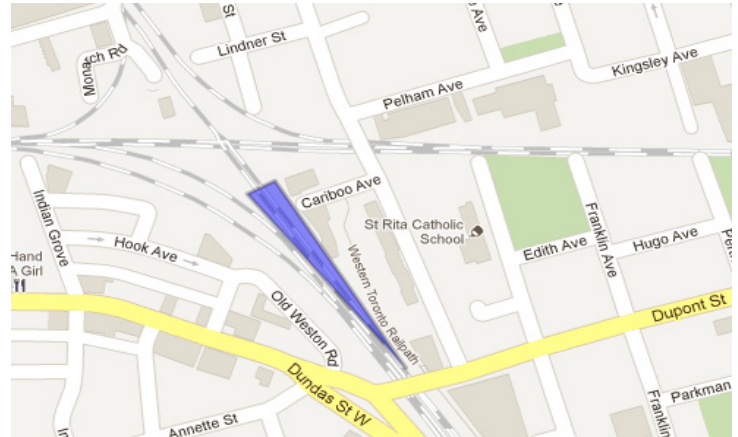

*The West Toronto Diamond Grade Separation Project is an important rail infrastructure project that will eliminate a major bottleneck at the most heavily used rail crossing in Canada. When completed, GO trains on the Georgetown line will pass below CP freight lines. This will improve service reliability, reduce noise, improve safety, and allow for future service improvements to reduce congestion in the northwest of Toronto.*

## Overnight Work and Road Closure Extension Weekend Work Over the Coming Weeks

### What we are doing

- The GO track will be moved slightly to the west (see map) to accommodate the next phase of construction. The diversion work will start **Friday, October 28 at 7 p.m.** until **Monday, October 31 at 4 a.m.** in time for the rush hour service.
- Pile validation and temporary shoring and span installation work will be done during the weekend daytime hours.
- We are planning to work the following weekends: **November 5-6; 12-13; and 19-20.** Work is scheduled to **begin at 7 a.m.** and end at **11 p.m.**

### How this will affect you

- Minimal noise due to overnight track diversion work confined to the area between Dupont St. and Cariboo Ave.
- There will be some noise and vibration with temporary shoring installation and pile validation work over the three November weekends.
- Please visit [gotransit.com/gts](http://gotransit.com/gts) or call Kelly at 416-604-9582 for further information.

### Rail crossing at Old Weston Road and Junction Road to **Remain Closed**

- The rail crossing at Old Weston and Junction Roads **will not reopen on November 15** as planned.
- Due to unforeseen difficulties with construction, we regret that the rail crossing will remain closed. We will let you know when the rail crossing will be opened as soon as we can.

**We apologize for any inconvenience and appreciate your continued patience.**
