

The Georgetown South (GTS) Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Air Rail Link service between Union Station and Pearson International Airport.

Queen Street West Road Closure November 26 to 28 and December 3 to 5

What we are doing

Between November 26 to 28 and December 3 to 5, 2011, two new bridge spans will be installed on the east side of the Queen Street West bridge (at Queen and Dufferin Streets) to accommodate additional tracks. The work involves erecting the new spans and securing them in place.

November 26 to 28

- **Full road closure** of Queen Street West between Gladstone Avenue and Dufferin Street is required from **Saturday at 5 a.m. to Monday at 5 a.m.**
- Work to begin at 6 a.m. with heavier equipment work beginning at 8 a.m.

November 28 to December 3

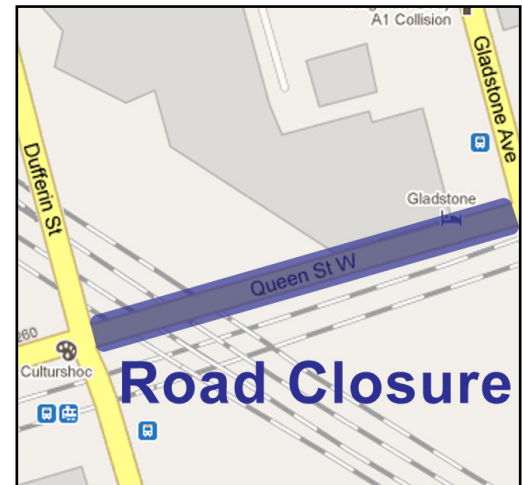

- Lane restrictions in effect

December 3 to 5

- **Full road closure** of Queen Street West between Gladstone Avenue and Dufferin Street is required from **Saturday at 5 a.m. to Monday at 5 a.m.**
- Work to begin at 6 a.m. with heavier equipment work beginning at 8 a.m.

December 5 to 9

- Lane restrictions in effect

How this will affect you

- There will be construction noise from trucks, cranes, and other equipment; little to no vibration impact is anticipated
- Vehicular traffic will be redirected along Dufferin Street to Peel Avenue to Gladstone Avenue. Please follow temporary detour signage
- Pedestrian access will be maintained at all times – on one side of the street or the other – except during the span installations on November 26 and December 3
 - During this time, all sidewalks will be closed at the bridge for a brief period of time
- There will be two paid duty officers, one at Dufferin Street and one at Gladstone Avenue, to help direct traffic
- TTC buses will provide service in place of the 501 Queen streetcar
 - For further details on TTC service, please contact the TTC at (416) 393-4636 or www.ttc.ca
- There will be some additional work after the spans are installed
 - This work will include standard site clean up and should have minimal impact on traffic or the community
 - The TTC will work to reinstall the streetcar catenary wire
