PRESTO is coming to Oakville

PRESTO is an easy to use fare card that will allow users to travel on and between multiple transit systems with the simple tap of a card.

The PRESTO card is the size of a debit card and has a computer chip that communicates with card readers at transit stations or on transit vehicles. The system calculates the fare for your trip and deducts it from the balance stored on your card – all in less than a second.

Tap into PRESTO

You could participate in the first phase of the PRESTO rollout if you:

- pay adult fares
- travel regularly on the GO Train between Oakville or Bronte GO Stations, and Union Station
- use Oakville Transit bus routes 22, 32, or 110
- use the TTC subway, or Harbourfront or Spadina streetcars from inside Union Station

PRESTO means:

Convenience – No more lining up to buy tickets or passes each month. Simply load money onto your card through PRESTO's website or call centre, at Oakville or Bronte GO Stations or the PRESTO counter in the GO Concourse in Union Station, or at the Oakville Transit office. You can even arrange for automatic payments to be made to your PRESTO card and never have to worry about having a low balance.

Flexibility – Change your plans anytime. Use PRESTO to travel on any participating transit system.

Easy transfers – Travel within and between transit systems without the need to carry different tickets and passes. The PRESTO card does the work for you.

Peace of mind – If your *registered* PRESTO card is ever lost or stolen, it can be replaced and the value restored (\$6 card issuance fee).

Tax credits – *Registered* PRESTO cards are eligible for the federal public transit tax credit if you use your card for at least 32 one-way trips within a calendar month on an individual system.

Environment – More transit riders means fewer cars on the road, less congestion, and a cleaner environment for everyone.

Fares and passes with PRESTO

With PRESTO, a fare is deducted from the balance on your card each time you travel. This will be a change for customers who have traditionally used monthly passes or tickets. For GO and Oakville Transit riders, there is a built-in loyalty program which automatically discounts fares based upon the value of a certain number of rides being taken. For fare info, visit gotransit.com or oakvilletransit.ca.

I want to try PRESTO, what do I do next?

Your first PRESTO card is free! (A \$6 value.) Simply complete the PRESTO application form, seal it in the envelope provided, and deposit it in the specially marked PRESTO box outside of Oakville or Bronte GO Stations, take it to the GO Customer Service Centre at Union Station, or return it to the recruitment ambassadors on Oakville Transit buses. If you're selected to be part of this phase of PRESTO, you'll be notified by e-mail within a few weeks and receive your PRESTO card with information on how to use it.

All PRESTO cards for this phase will be registered.
For details about card registration, visit prestocard.ca

A little more about PRESTO

The Government of Ontario is continuing to develop the PRESTO fare system with GO Transit, eight municipal transit systems in the Greater Toronto and Hamilton Area (GTHA), and Ottawa.

Over the next few years, PRESTO will be expanded to include all GO Train and Bus services, and most municipal GTHA transit systems, plus Ottawa's OC Transpo.

Tap into Convenience

- **No more lengthy month end line-ups.**
- **No more multiple tickets, passes or transfers.**
- **No more fumbling for exact change.**
