West Toronto Diamond Project >> Status Update

June 2010

On Wednesday, June 2 and Saturday, June 5, 2010, we held Open Houses to provide information on work during the upcoming CP track closure. For those of you who were unable to attend, here's what was discussed.

Work During Early July

Between July 3 and July 18, 2010, we will install centre wall piles under the CP connecting track and possibly remove and install approximately 14 other piles in the area. This work requires track removal and CP has granted us an extended track closure for 16 days in order for us to complete this work.

What to Expect

There will be little difference in the pile installation work compared to recent months. Giken will be used to install the majority of the piles. The week before the track closure, three starter piles will be set up using a combination of the vibratory hammer and depowered shrouded impact hammer. The work plan has been reviewed and agreed to by the CTA, the City of Toronto, and the West Toronto Diamond Community Group (WTDCG).

Hours of operation for pile installation

- Monday – Friday 8:00 a.m. to 4:00 p.m.
- Extended hours for Giken only (7:00 a.m. to 7:00 p.m. Monday-Friday)
- Saturdays 9:00 a.m. to 5:00 p.m. for Giken only

There may be intermittent extended hours for other construction such as augering and concreting of piles.

Current Status

To date, we have installed over 2100 piles (90% complete); the remaining piles will be installed by December, 2010.

Contact Us

We thank you for your continued patience and understanding as we work to complete this project as quickly as possible.

Please continue to direct any questions/concerns you have to our on-site liaison, **Kathryn Hanford 416-604-9582** or kathryn.hanford@gotransit.com.

Closure of Old Weston Road and Junction Road

Beginning June 29 to September 30, 2010, a full road closure of Old Weston Road and Junction Road is necessary to allow for the installation of the centre wall. Equipment will be in full operation across this intersection. For safety reasons, pedestrian access will also be closed during this time. Signage will be posted prior to the road closure. We apologize for the inconvenience, as we complete this work as quickly and safely as possible.
