West Toronto Diamond Project: Status Update *July, 2010*

Current Status

- The work during the track closure between July 3rd and July 18th has been successfully completed
- No complaints about this work were received
- 96 per cent of the piles have been completed, with fewer than 95 to be installed
- Installation of the remaining piles will be complete by the Fall
- The next phase of the project, which will start in the Fall, involves drilling out and concreting the piles
