

How to Use a ChargePoint Charging Station

INTRODUCTION

Look for the UIC reader symbol.

You must use the same card to start and stop a charging session.

START A CHARGING SESSION

1. Hold your ChargePoint card or contactless credit card over the UIC reader symbol on any ChargePoint Network charging station. After authorizing, the station displays a message indicating you can remove the connector from the holster and plug it into your electric vehicle.
2. Remove the charging station's connector by pressing down on the button at the top of the handle while pulling the connector from its holster.
3. Plug the connector into your electric vehicle. The station displays a message indicating the vehicle is charging.

END A CHARGING SESSION

4. Hold your card over the station's reader symbol. The station displays a message indicating that charging has finished and to return the connector to its holster.
5. Return the station's connector to its holster by pressing down on the button at the top of the handle while pulling the connector from your electric vehicle. The station displays the charging duration and cost (if any) of your charging session.
