GO TRANSIT: FACT SHEET

GO Transit's distinctive green and white trains and buses serve a population of more than seven million across more than 11,000 square kilometers, stretching from Hamilton and Kitchener/Waterloo in the west to Newcastle and Peterborough in the east, and from Orangeville, Barrie and Beaverton in the north to Niagara Falls in the south.

Since May 1967, GO Transit has evolved from a single GO Train line along Lake Ontario's shoreline to an extensive network of train lines and bus routes. Since service began, more than a billion people have taken a GO Train or Bus— to work or school, to get home, or for leisure activities. GO provides its passengers with safe, fast, reliable and comfortable service to downtown Toronto and other urban centres.

At Metrolinx we're working to provide residents and business in the GTHA with a seamless, integrated transportation network. Everything that we do is guided by our Regional Transportation Plan which links communities across the region, creating connections that support sustainable growth and prosperity.
